

Obtain $i\mu$ of
each input

```
graph TD; A[Obtain  $i\mu$  of each input] --> B[Perform  $\alpha$ -cut in each consequent]; B --> C[Apply union to the cut consequents]; C --> D[Obtain the iCoA of the union of consequents];
```

Perform α -cut in
each
consequent

Apply union to
the cut
consequents

Obtain the iCoA
of the union of
consequents
